About the property

Palazzo Plebiscito is centrally situated overlooking the main Piazza in Ceglie Messapica. The property was built in the 1930's and there are many original features.

The dwelling area measures 200 sqm and the accommodation consists of 6 main rooms, a bathroom and storeroom. Most of the rooms are situated on the first floor with 1 room at ground floor level and a kitchen area on the raised upper level (floorplans are available).

There is a roof terrace which provides panoramic views over the town and surrounding countryside and balconies to the front of the property which overlook the main square. There are 2 entrances to the property and although the property requires to be updated, its central location would make it ideal as a rental investment.
